

RelativityOne Small Case Solution

Simple | Affordable | Powerful

\$295/User/Case/Month

Secure

- RelativityOne is built on Microsoft Azure, which meets more than 90 international and industry-specific compliance standards, such as ISO 27001; SOC 2, Type II; HIPAA; and FedRAMP.

Powerful

- RelativityOne offers the highest level of security, powerful structured and conceptual analytics tools, automated native redaction with Relativity Redact, personal Client Domains, and much more.

Scalable

- Should your case grow, you can seamlessly continue your process with no additional set-up or rework.

Centralized

- With up to two dedicated superusers across all cases, your team can take control of your cases' data from start to finish in one centralized platform.

Considerations:

- > Are you spending time keeping track of PDFs that could be centrally managed?
- > Do you have version control issues with your document repository?
- > Do you want a central portal to access all of your case and investigation data?
- > Do you want to be able to easily process data and run productions?
- > Could your small case potentially grow in the future?
- > Are you concerned about how you can transfer work product?
- > Are you dealing with various communications such as emails?
- > Do you or your corporate client deal with 0365?
- > Do you frequently do redactions?
